

STANDARD FORM NO. 64

~~SECRET~~

# Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Engineering Division, OC

SPM 8-765  
DATE: 21 August 1958

FROM : Chief, Supplemental Programs Division, OC

SUBJECT: Audio Oscillator, IN-9

REF : ENG 8-491

1. Transmitted herewith is the prototype model of the unijunction audio oscillator, IN-9, and the instruction manual which was received from your Division.

2. It is requested that frequency versus temperature tests be performed to determine the stability of the unit with variations in temperature from minus 20°C to plus 40°C. Based upon the results of this additional test, the number of units needed to meet operational requirements will be determined.
